EXPLOSION ON A STEAM TUG IN THE SCRANTON DOCK, JERSEY CITY,
From The Jersey City Dally Times, Dec. 19.

Another disastrous explosion in this vicinity Another disastrons explosion in this vicinity ended with loss of life, occurred shortly before five lock this morning. The residents in the lower part of city were startled at that early hour from their situation of the series of the large and the sound of an unusual mac. The few persons who were on the Scranton Dock to the rime, hashened to the spot whence it proceeded to the mine to the tree men struggling among mass of fee then floating in the dock. It was a seen that the boiler of the steaming Unit had to lad, immediately destroying and sinking the s.l. The three men taken out of the water terribly eked and speechless were instantly recognized as st, a distance of at least 300 yards. The deceased he man had only been employed about two weeks on boars the Unit, though it is said that he has had considerable experience in firing up. He is about 22 years of age, un married, and resided at Kenton, New-Jersey. Hi legs were frightfully scalded, and he had only sustained a few cuts about the head and face arer the huge heaps of coal piled up on the Seranton pier, and was found at daylight on one of the heaps, at a distance of over 200 yards from the scene of the casplosion. The other three survivors had a most providential escape with their lives. Bond, the deck hand, and Durning, the eigeneer, were both sleeping alongside the boiler at the time of the explosion, and were blown out at different doors. Durning was the most seriously injured, having sustained a severe scalp wound, and being burned badly around the neck. He was taken to the New-York Hospital. Bond and Handy were only slightly burned about the face, and both are able to be about this morning. Mr. Patrick McCullough, who was formerly employed as an engineer on board the Unit, said to our reporter that he never had much confidence in the boiler, and that he had been of the opinion that the flue-sheets were worn out long ago. Strips and splinters from the tag are scattered all over the heighborhood, and the coal heaps are fairly strewn with the fragments of the ill-flated vessel. The portion of the boiler which was carried in Capt. Forg's wood-pile, and in its descent knocked a large hole through the high board fence which incloses the yard. A large hillet of wood struck the fron railing of a dwellinghouse in Greenest, breaking it into pieces.

LOST IN THE SNOW-A TERRIBLE DISASTER IN KANSAS.

A correspondent in Salina, Kansas, sends us an account of a distressing occurrence near that place on the 28th of last month. On that day a lad of 12 years, a son of our old correspondent, Col. W. A. Phillips, had gone

the 28th of last month. On that day a lad of 12 years, a son of our old correspondent, Col. W. A. Phillips, had gone out shooting in company with his cousin, David Addison. About noon at the advice of his companion, who saw a storm roming on, he turned to go home. He immediately started toward town at a rapid gallop; and was never spoken to sgain. About 1 o'clock a terrific snow storm set in. After it had set in, and before it had got so bewildering as to be completely binding, a boy like him was seen riding with great rapidity along Mulberry Creek. The terrible snow storm of Thanksgiving day seemed to travel from the north-west to the south. It was 5 o'clock before Mr. Addison, with whom the boy was still supposed to be, returned home from the woods. Such a search as the storm permitted was at once made, but all in vain.

Ten days passed. A hundred people had been scarer; ing for the lest boy, but no trace of him was found. The horse he rode was found in the hills 20 miles to the southwest, four days after he was lost. On Monday the 9th inst. a Kaw Inflian visited a white settler on the Smoky Hill River, at a point 36 miles from Salina, south-west, and told him that a "dead white man" was "in the river." He was a petty chief, and with a number of his people accompanied the white settlers to the spot. It was only a half-mile distant from the house. Fearful of being suspected, as these poor people often are, the cautious Indian made his people stand up on the bank, and with the white men first examined if there was any trail of man near the spot. None were found. Then the body was carefully examined to see if it had any wounds; it had none. It was the body of a boy, with light golden hair and broad forchead. He lay on his face, his coat and overcoat still carefully between two farms, and covercoat still carefully between two farms, and could have seen them had the snow which, ceased before midnight, not filled the air with its blundering drifts. In thai one night the cold was so intense as to freeze the river th

were \$55,526,000, and the balances \$1,650,549. Government stocks were firm. The 5-20s of 1862 sold at 10% regular, and at 10% seller 30. Compons of 1881, rose 1, with higher rates for the loan of 1864 and 1865. State stocks were steady. Rock Island and Pacific 7s sold at 95. Bank shares steady. The stock market continues firm, with an increasing disposition to oprate for an advance. At every rise there is a scramble to sell to realize profits by weak speculators, who, after realizing, are ready to pick up their stocks again, with little regard to prices, for another short turn. Pacific Mail opened at 1201, and sold during the day at 1172, closing at 1172. The opposition line appears determined to take business at rates which leave no profits anywhere. The election on Monday showed that the "opposition" directors were admitted to the board through the fears of the party in power. Had their courage equaled their strength as owners, they would have been spared the mortification of throwing Cverboard the oldest and most able director, to make place for members whose chief strongth was in the andacity with which their claims were pressed. The Railway share market at the regular Board was active at the full quotations of last night, with large sales. Cleveland and Pittsburgh was in demand, at higher rates, by parties connected with the management. The Company for the fiscal year show net earnings of 13 per cent, and is claimed by its friends to be in a condition to pay quarterly dividends of 2½ per cent. Nearly three millions of earnings have been used in construction and acquiring facilities by which business can be done economically. Michigan Southern was strong, and taken by good buyers. The balance sheet for the year ending Nov. 30, 1867, shows that the "opposition" directors were admitted to the board through the fears of the party

a profit of 11 per cent. The company has built a rolling mill at Reading, and will make a large saving on its outlay for rails. Fort Wayne sold at 901 @ 901. The Pittsburg Commercial says: "The heavy increase in the expense account in last month's statement arose from the immense outlay for iron." Milwankee and St. Paul rose 11 on the Common and 1 on the Preferred stock. After the call the market was lower on sales to realize upon nearly the whole list, but at the decline there was the usual desire to take stocks back again. At the Second Board prices were strong and higher on several stocks. After the call the market broke, Erie selling at 731/2731. At the decline buying recommenced, and the market closed steady.

Government stocks of all issues closed firm and in demand. The 6s of '62 are 108 @ 108); the 6s of '64, 105@1051, and the 6s of 1865, 1051@1051; 10-40s, 101@

Money is easy at 6 per cent on call, and more offered than can be used by stock houses. Commercial paper is more ready of sale.
